IN ACTION

"FEEDBACK FROM THE FIELD"

"It's a safer way to set a spike and takes a lot less effort."

BNSF Roadmaster

PATENTED

KEY FEATURES

- Set spikes in seconds while reducing fatigue and injury risk
- Fastest and safest way to set a railroad spike
- Compatible with battery, manual, or hydraulic drivers
- Keeps gauge since spikes are vertically driven
- Takes 2 seconds to set the spike
- Greatly reduces flying spikes from glancing blows
